EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

a. This application is in condition for allowance except for the presence of claims 9-18 directed to Figure 4 non-elected without traverse. Accordingly, claims 9-18 have been cancelled.

b. On page 5, line 6 "helpful," was changed to, --helpful;--, in order to form a complete sentence.

c. In claim 2, line 1, --the bogey beam is hollow, and--, was inserted after "wherein" in order to avoid double inclusion (currently, claim 2 seems to recite a hollow bogey beam in addition to the bogey beam of claim 1).

d. In claim 2, line 1 "within a" was changed to: --within the--.

e. In claim 6, line 1, --the bogey beam is hollow, and--, was inserted after "wherein".

- f. In claim 6, line 1 "within a" was changed to: --within the--.
2. The following is an examiner's statement of reasons for allowance: In claims 1 and 5, the prior art does not teach, in combination with the other elements recited, front, rear and middle driven wheels and a longitudinally oriented bogey beam with the front steering axle attached at the front end of the bogey beam and the middle driven axle attached at the rear end of the bogey beam, and the bogey beam attached to the vehicle at and pivoting about a pivot point between the front steering axle and the middle driven axle, a drive shaft interconnected with the front steered wheels and interconnected with the middle driven axle and driving the front steered wheels from the middle driven axle.
- Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hulbert US006629699B2 was cited by applicant. Horiuchi et al US004664208 is cited to show a rear driven axle driving a middle axle, which in turn drives a front axle.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric Culbreth whose telephone number is 571/272-6668. The examiner can normally be reached on Monday-Thursday, 9:00-6:30.
